GENRE	Simulation, Indie
MODE	Single player
LANGUAGES	English, Russian, Turkish, French, Italian, German, Spanish (Spain), Japanese, Polish, Portuguese (Brazil), Portuguese (Portugal), Simplified Chinese, Traditional Chinese, Lithuanian, Korean

SHORT DESCRIPTION

Take on the role of a starship mechanic and pay off the immense debt your father left behind. Craft components, build starships, and take contracts from factions. Follow galactic events, and pay the debt before the deadline.

LONG DESCRIPTION

Start by salvaging broken items for parts, then craft them into basic components. Unlock more advanced components and new starship blueprints, then build ships of your own.

Take contracts from rival factions, racing pilots, desperate strangers, or big shots across the galaxy. Each job builds your reputation, pays toward the debt, and pulls you into their stories.

Pour your earnings back into the workshop. Upgrade workstations and unlock underground hangar floors to build, repair, patch, and replace broken parts on starships. Restore the workshop to its former glory.

Uncover the truth behind your father's disappearance and the debt he left you. Earn the trust of rival factions, choose who to stand with, and shape how your story ends. All the while, a living galaxy moves around you, with elections, races, and conflicts unfolding in the news whether you take part or not.

KEY FEATURES

Ship Production
Design and build starships from scratch. Weld hulls, fit components and deliver custom vessels to clients.

Workshop Upgrade
Expand your inherited shipyard with new tools, workstations and storage, and take on bigger contracts.

Branching Story
Your choices lead to multiple endings. Ally with factions and decide the fate of your family legacy.

Contracts & Factions
Take contracts from rival factions. Each has its own terms, deadline and rewards that shape your reputation.

Dynamic Events
Follow galaxy events in the newspaper in the game. Market shifts and faction conflicts make every playthrough different.

Droid Management
Hire specialised droids, from transport droids to firefighting droids, and keep your shipyard running day and night.
